NILES CHAMBER OF COMMERCE LUNCHEON GETS RECORD CROWD

Special Program Given
By Boy Scouts Of
Troop 1

The regular Tuesday luncheon meeting of the Niles Chamber of Commerce was held at the Florence restaurant, and a record crowd was in attendance. Due to the efforts of William Helm, membership chairman, there were 31 members and five guests present, for which splendid showing Mr. Helm was officially thanked.

At the opening of the business discussion Harvey Braun, president of the chamber, read four letters, two from the county surveyor's office in regard to the oiling of the Niles' streets, and two from the Decoto and Sunol chambers of commerce stating that they would gladly endorse the proposed landscaping plans for the Niles-Hayward highway.

A communication from the board of supervisors also stated that the petition for the closing of the Mission Peak road had been unanimously denied.

Boy scouts Arnold Abbott, Jack Townsend and John Habenicht spoke of the scout activities and movements as a part of the scout 20th anniversary week program.

E. B. Hodges, principal of the Washington Union High school announced that a meeting was to be held Thursday evening at the High school to discuss ways and means of sending the Washington Township band to the Sacramento band contest. Mr. Hodges also stated that it was his opinion that the Washington Township band had a fair chance to win the competition for Class "B."

F. V. Jones urged a good attendance at this meeting, as he believed that it would prove to be a good advertisement for Washington Township to send the band to Sacramento even though they did not prove to be winners.

Mr. Thomas, of the county surveyors office, spoke about the plans of the county regarding the oiling of the streets of Niles.

W. B. Kirk was appointed membership chairman for the coming week, and at this time he announced that Mr. Williams, superintendent of Niles water district, would be the principal speaker at the meeting of the chamber on February 18. As there was no further business to be discussed the meeting was adjourned.

TOYON BRANCH OF BABY HOSPITAL TO MEET FEBRUARY 25

New 25-Bed Contagion
Ward Addition To
Building

At a meeting of the Toyon Branch of the Southern Alameda County Baby Hospital, held at the home of Mrs. W. H. Ford, Mrs. George C. Jensen, of Piedmont, chairman of the branches of the hospital association, talked of the development of the organization and of the outstanding feature just added to its service.

The usefulness of this institution has been greatly increased by the new contagion ward of twenty-five beds, which is now ready for use. Mrs. Jensen stated that this innovation was a direct answer to an urgent appeal and need. The only other hospital offering this department is the Highland.

The Baby Hospital is distinguished by the policy of the sliding scale which allows the patient to pay according to his means. This policy is commendatory in that it offers the middle-class people proper medical care, which is so badly needed, and at a cost that can easily be met. The hospital is trying to remedy the situation of the charitable institutions which do not accept a person unless actually penniless, and thus offer aid, under the new plan, to those who are poor but too proud to ask for help of any kind.

The next meeting of the Toyon Branch of the Southern Alameda County Baby Hospital will be held at the home of Mrs. William Patterson, of Newark, on February 25.

TOWNSHIP COUNTRY CLUB MEETING ON THURSDAY, FEB. 4

Modern Fiction Review
Given By Mrs. R.
Bendel

The regular meeting of the Washington Township Country club was held Tuesday, February 4, at 2 p. m., and was presided over by Mrs. William Robie, president.

The club went on record as sponsoring the Englebright bill for the preservation of the National forests.

The sum of five dollars was voted to be sent to the Alameda county Federation of Women's clubs, to help increase the fund for the purchase of a dog for a blind girl in Berkeley.

A club for the blind has been started in Oakland by Mrs. Pickering, county president of the Federation. There is a great deal of keen interest shown by all members for the success of this club.

Mrs. Roland Bendel gave a review of Modern fiction at this meeting which was very interesting and unusually instructive and introduced a number of new ideas. The books discussed were "Kristian Labransbatter's Daughter," by Siegfried Undset, and "Victor or Victim" by Oliver, and

COUNTY FAIR PLANS TO BE DISCUSSED AT HAYWARD FEB. 18th

Movement Sponsored By
Prominent Club
Organization

I. G. Hodgkins and A. Kruse were visitors in Niles Tuesday, and they announced that a movement is being promoted to work up interest for a strictly county fair to be held temporarily at Memorial Park, Oakland.

Mr. Hodgkins, and Mr. Kruse, chairman of the committee for the furthering of this project, called upon the business men of the township, and it is expected that there will be a record crowd at the meeting which is to be held at Masonic Hall in Hayward Tuesday evening, February 18 at which time plans for the proposed county fair are to be discussed.

The Federation of Improvements Club is sponsoring this county fair movement and it is hoped by all who are really interested that in the near future 20 acres of land can be purchased and permanent buildings erected for the purpose of holding these fairs.

This county fair idea is really worth consideration, for it would promote interest in the towns, cities, and outlying districts. The ranchers and business men of the different townships would meet, and ideas, and viewpoints would be exchanged. The spirit of competition would be awakened, and the citizens of the various communities would do their utmost to have the name of their town or city honored.

All those who are interested in furthering the county fair project are cordially invited to attend the coming meeting in Hayward. Representatives from all parts of the county will be present, and an open discussion will be a part of the evening's program.

BAND QUESTION TO BE DISCUSSED AT HIGH SCHOOL, FEB. 13

All Who Are Interested
In Township Will
Be Welcome

A meeting is to be held at the Washington Union High school auditorium Thursday evening, February 13, at 7:45, to discuss ways and means of sending the Washington Township band to the state competition at Sacramento. All lovers of music and particularly forward thinking people of the township are urged to attend.

The meeting is for the purpose of learning the sentiment of the citizens of the community, and no effort will be made at this time to obtain money for the band.

It is the opinion of many that to send the township band to the contest will be a valuable advertisement for this district, and it is believed that the band will have a very good chance to win honors in class "B."

EDITORIAL COMMENT

By NORMAN H. PARKS, Publisher Register

SOMETHING ROTTEN IN DENMARK!

February 12, 1930.

Burton J. Wyman,
Referee in Bankruptcy,
Oakland, Calif.

Dear Mr. Wyman:

Your notice sent out to creditors of a certain bankrupt that a meeting would be held to pass upon and approve the claim of the trustee and the application of an attorney for his allowance in handling the legal angles of the bankrupt's assets received recently. I know that you must have been disappointed that I did not appear. But I can assure you, Mr. Wyman, that I read the notice and digested it carefully. I might more truly say that I noted its contents with amazement. I was so amazed, that I remained away from the meeting. I knew it would be a waste of time to go to that little affair that you had planned for December 31—the last day of the year—a fine time to lick up the assets of the bankrupt and let the creditors "hold the bag." For one, I did not propose to sit in at the sham proceeding.

I am a good sport and take my loss with a smile but I don't like to have it rubbed in. Don't like to sit around while the referee and his lawyer split the stakes, and the men and women who rendered the bankrupt a real service while he was still solvent, depart empty-handed. I learn, Mr. Wyman, from your report, that the assets are \$167.30. I see that the receiver, one E. C. Street, is to get \$11.90. I believe it ought to have been made an even \$12. It would have been O. K. with this creditor, anyway. But Mr. Street was modest. He ought to have a gold medal, when you consider the claim of Harvey A. Shiffer, Esq., for \$75. Yes, they call him esquire in the notice. Probably that's why they allow him to charge just about one-half the amount of the assets as a fee for his able services.

I am thinking Mr. Wyman, that nobody around the referee's office hates this man Shiffer. He is probably a big man dealing in pennies. And just because he is dealing in pennies should not preclude a fat fee—especially if he is "alright" with the gang.

You were indeed, sorry, Mr. Wyman, I am sure, that I could not attend. If, however, perchance you should declare a dividend for the boob creditors, give the few cents that would be coming to me to the Boy Scouts. That would be my good deed for the day.

Yours regretfully,

NORMAN H. PARKS

COME FIDO!

"GRANDMA" RICHARDSON, one time governor of California by grace of Mister Harry Chandler, is going to do just what we told our readers several weeks ago he would do—be the good man "Friday" of other days and get behind the man the big chief picked out to beat Young Fitts is that boy, and Friend Richardson is going to be the hauler of wood and carrier of water. For just a little while the make-believe newspaper man strutted about like a pouter pigeon believing he heard a call from the vicinity of Fifth and Broadway to again become the standard bearer of the reactionary forces in California. If he had taken our advice of months ago he would have crawled into a hole and dragged the hole in after him. But no use. He went blundering about, and the big boy in the south was forced to be rude and tell Richardson to stop his nonsensical talk about running for governor and get ready to swing the editorial association behind Fitts. Richardson stopped talking as he was told, but before he did so, he opened his mouth wide, put his foot in it, and thereby pulled the biggest bonehead stunt of political record.

And the last nail was driven into his political coffin.

And here's your hat, Richardson, and what's your hurry?

Pipe Lines To Be Laid To Alvarado Salt Works

The California Chemical Company, of Newark, has recently completed its new plant, and now \$50,000 is to be expended in dredging work and pipe lines. An arm will be dug that will extend from the plant to the Newark Slough so that barges, loaded with shells brought in from the bay for the manufacture of various products, can be unloaded. This work will cost \$15,000.

It has been estimated that there are enough shells in San Francisco Bay to last 100 years for the manufacturing of cement and lime at the rate of several hundred sacks daily.

A pipe line to cost \$30,000 will be laid from the plant to the Alvarado salt factories to carry bittern water from them.

The contract for this project was let last week, and shortly the crews of men hired for the labor will begin the preliminary work.

This will mean more business for the merchants of Newark, and also an increase in population.

Warm guests--

when there is heat
 at a finger's touch

During a social evening, does some member of your family interrupt the party to fuss with the furnace?

With gas fuel burning in your furnace, a thermostat or a push-button regulates the temperature. No annoying trips to the basement. No bother about starting a fire when friends come—a finger's touch gives you instant heat. And any healthful temperature is maintained throughout your home.

With clean gas fuel, the curtains, wall-paper and furniture retain their fresh cleanliness. There is no smoke or soot about your property.

Even though you have no basement, there are fine types of gas-fired heating equipment for your home.

FIRE INSURANCE RATES FOR NILES TO BE REDUCED

It has been announced that the rates for fire insurance in Niles are to be reduced due to the excellence of fire protection throughout the district. The rates for brick and stone buildings especially will be lower, because the hazard is much less. The conditions existing in Niles were found to be better than those of the average community of the same size.

E. D. Fortman, surveyor for the board of fire underwriters of the Pacific coast, has been calling at each business house in Niles this week to fix the rates of insurance.

So once again it is indicated to us that Niles is growing, progressing, forging ahead, getting somewhere in the great race for recognition as a wide-awake city. The new buildings, safety measures, and the efficiency of the Niles Fire department, which is eager at all times to battle the fire menace, are responsible for this step forward. Progress takes work, planning, money, and unlimited time, but in the end we are repaid. Give something to Niles, and Niles will give something to you. All this community needs is a chance, don't just be in it, be of it and for it. Then watch us grow.

RONALD COLMAN'S FIRST TALKIE AT FOX T & D FRIDAY

Ronald Colman, the screen's most romantic figure, will appear in his first all-talking adventure thriller, "Condemned," Friday, February 14, at the T & D theatre, Oakland.

"Devil's Island," a grim menacing jungle land girdled by a shark-infested sea, is the colorful locale. There, among the brooding danger of a forgotten people, occurs the strange romance of "Condemned."

Notorious throughout the world as the last abode of criminals Devil's Island harbors the most famous of all the French penal colonies. Fever infested swamps make escape practically impossible. Ancient traditions have long invested it with formance. Wesley Ruggles, director, has overlooked none of its possibilities in producing the picture, "Condemned."

Mrs. Tony Miller was a visitor at the home of her sister, Mrs. Joseph Santos, of Pleasanton, this week.

BOY SCOUTS TELL OF TRAINING AT ASSEMBLY

A Boy Scout program was given at the student assembly at the Niles Grammar school Friday afternoon, at 2:30, after the regular business was disposed of. Arnold Abrott, president of the student body and a member of scout troop No. 1, of Niles, gave a brief talk on the pleasurable outings, and social affairs of the scouts, John Habenicht, and Jack Townsend, also troop members, gave brief outlines of camping, and their belief in being prepared for anything. In closing Miss Celeste Bunker, teacher of the seventh grade class, and E. Dixon Bristow, principal, gave speeches on the meaning of the scout laws, and the value of the training the boys receive. This program was enjoyable, for boy scouts, and the work they do interests all, old and young.

The past week was dedicated to the Boy Scouts of America, in celebration of the anniversary of the founding of this organization. Reverend Brinkmeyer held special services in their honor at the Niles Congregational church last Sunday. This nation and worldwide scout organization is famous for the valor, kindness, and generosity of its members,

and they are indeed deserving of the name "Good Scouts."

COIT'S HARDWARE STORE BURGLARIZED WEDNESDAY NIGHT

Men Drunk On Rubbing Alcohol Take Tape Measures

The hardware store owned by George Coit, of Centerville, was unintentionally burglarized Wednesday night at nine o'clock by two men, Thomas McVey, and George O'Brien, of Oakland, who were reported to be intoxicated.

The men declared they were hunting for water when they saw a light in the hardware store, and finding the door unlocked, entered. It was reported that instead of getting water they helped themselves to 65 pocket knives, two watches, and three tape measures from one of the show cases.

The two men were apprehended in a garage back of the hardware store by some of the Centerville business men, who were having a meeting in the office of Judge Allen G. Norris, next door to the hardware store. When taken the burglars were reported to be busily engaged in emptying the contents of a bottle of alcohol, commonly used for massaging purposes. They explained that they had been looking for water to mix with this alcohol.

The door of the Coit store had accidentally been left unlocked by two of Mr. Coit's friends, who had been using the telephone. This oversight was noticed by Thomas Silva Jr., who saw McVey and O'Brien enter, and he immediately notified Mr. Coit who was at the meeting next door.

McVey and O'Brien were incarcerated in the Centerville jail for the night by the local officers, and were arraigned before Judge Norris Thursday morning, at which time they stated that they were on their way to Newark to seek employment, and that any law-breaking was unintentional on their part. McVey and O'Brien were sentenced to serve ten days in the county jail, Oakland, for drunkenness and petty theft.

EDWARD GEORGE GIVES SPEECH AT HIGH SCHOOL

Edward George of the Centerville Nash Company, recently visited the Washington Union High school, where he gave a short talk before the student body. Mr. George is an alumnus of this institution.

"There are eight factors necessary to be successful in the business world," said Edward George in his talk entitled "The Philosophy of Business." Some of these are: making a living, profitable use of leisure time, the art of thinking, the art of expression, correct behavior before men, and character.

"Some obstacles which may hinder all who enter into the business world are: stupidity, other interests, frivolity, fright and laziness. This last word is the greatest liability. Eighty per cent of the failures in the business world are due to laziness.

"Pride in appearances means a great deal in business life, as the man who employs you can only tell by your appearance whether you are capable to fill a certain position," Mr. George said.

"Success or failure generally comes from mental attitude rather than mental capacity," said Mr. George in conclusion.

lines, and he stressed the need of a more complete understanding between the teachers and parents of the different nationalities and customs of this community. In order to give children a better understanding, and a clearer view point, the parents must themselves learn, and it is the desire of the association to teach the parents the proper care and thought for their children. For this purpose it is proposed to have a teacher who will call at the various homes in the capacity of home teacher, or home economics instructor.

At this meeting it was announced that the Niles branch of the Parent-Teachers' association would exhibit several very fine pieces of antique and art work at the coming meeting at the Pleasanton Grammar school, which will be held February 20. MORE ON Interesting Letters

(Continued from Page One)

portion of the editorial, stating, "I shall consider the case from various angles, which up to now have only been touched upon the surface, and if I find that my opinion has been changed through these facts, I shall editorially comment upon them. Until then I hold an open mind, but repeat that under even the present circumstances, Tom Mooney should be pardoned, and pardoned at once."

Mooney continued in his letter to cite a pamphlet which his defense committee has prepared, which he stated was his intention and the aim of the committee to place in the hands of every voter in the state, adding, "If you have received a copy of this little booklet, I cannot see how you or any man after reading the undisputed facts contained therein, have any further doubts about my complete innocence."

Another interesting portion of Mooney's letter is that in which he calls a parole "degrading, and humiliating." For the purpose of humiliating the readers of The Register to draw their own conclusions in this matter, Mr. Parks has consented to the reproduction of the following from Mooney's letter:

"Governor Young almost three years ago suggested parole to my friends when they approached him in my behalf. I put a stop to that immediately—I have said and here repeat for your personal benefit, that I would rather rot and die within the walls of this prison than accept a degrading and humiliating parole which would make of me a conditional prisoner of the State of California for the remainder of my life—subject always to being returned-for-life for the infraction of any ONE of the numerous rules governing parole, none of which are actual violations of law."

After having taken Mr. Parks to task for some of the reasons put forth in the editorial upon which he based his beliefs that Mooney should be pardoned, the noted former labor leader abruptly changes to a tone of commendation again and writes in closing:

"I am absolutely innocent of the charge for which I was convicted by 'FRAMEUP' and have suffered almost fourteen years imprisonment. I hope you will go into the case further, and you may rest assured that your continued efforts in behalf of justice will not only warm my heart, but enshrine you in the memory of your fellow citizens."

Referring back to Older's letter, he too added a paragraph of commendation for Mr. Parks, writing "I liked your excellent editorial on the Mooney case very much indeed. It has a strength and sincerity that I appreciate very much."

"I also thank you for the paragraph in which you give me a clean bill of health, so to speak."

Mr. Parks expressed deep appreciation that his humble efforts in the cause of justice should bring him so prompt and so pleasing a response. "It is indeed a pleasure," Mr. Parks declared, "to receive these letters, as the life of a newspaper editor is more often filled with messages which take one to task only, and never include any commendatory paragraphs."

YEGGS FAIL IN ROBBERY ATTEMPT

Amateur Safe Blowers
Fail On Pleasanton
"Job"

Inexperience at mixing chemicals, attaching fuses and placing electrical wiring combined to save the safe at Amador Valley High school, Pleasanton, Monday morning, according to those investigating the attempted robbery. The inexperience also is probably the cause of several persons being alive today, and the cause of the high school building remaining intact.

When Morris Elsnab, custodian at the Pleasanton school, arrived at the building about 2:30 o'clock Monday morning, he became aware of the presence of someone about the building as his dog was aroused. As it was so foggy he could not see and having no flashlight, Elsnab went into Principal R. O. Moyer's office on the ground floor of the building, to turn on lights.

They failed to respond. Upon looking further into the gloom of the office, Elsnab saw the safe. It was packed with soap about the edges of the door, dynamite fuses attached to the top of the door, and wires leading from the fuses to the light switch which Elsnab had attempted to use.

Realizing that something serious was afoot, and not being armed, Elsnab drove to Constable Albert Vervais' home, routing the officer out unceremoniously, and informing him of the state of affairs at the high school. Constable Vervais and Elsnab rushed back to the building where the officer took up a vigil while Elsnab went after deputy sheriffs.

Deputy Sheriff Hugo Radbruck was the first to arrive, followed shortly thereafter by L. E. Van Patten of Livermore. After the arrival of the other officers a thorough search of the building was made, but the would-be yeggs had made good their escape.

That the attempted safe blowing was the work of rank amateurs was evidenced by the method of their work. There were at least two youths connected with the crime, in the opinion of Constable Vervais. Tracks showed the foot-wear of the culprits to be youngsters, and there were two sets of the tracks on the office floor.

The cause of the footprints was brought about by the amateurishness of the culprits. They did not know how to properly use the nitroglycerine, which they believed they had compounded in the school's chemistry laboratory, and spilled considerable of it over the floor. The acid made black marks upon the office floor, and left footprints likewise.

The edges of the safe door had been packed with brown soap, and a large strip of adhesive tape placed across the top crack. It was into this that the alleged nitroglycerine was poured into the safe door.

Three fuses of sufficient size to explode 500 pounds each of dynamite were attached to the top of the door. They were not placed in the correct position for firing, however. The wiring from the fuses to the electric switch, likewise was faulty and precluded a possibility of an explosion.

On the other hand, if the work of the yeggs had been properly carried out and the charge set off the entire school more than likely would have been blown to atoms. It was estimated that nearly a gallon of the purported nitroglycerine was poured into the safe door and on the floor.

The would-be yeggs evidently spent all of Sunday night in the school building, as it is believed they made coffee and fried eggs during intermissions in their work. They attempted to compound their explosive in the chemistry laboratory.

Because of the evidence that the robbery was an "inside job" members of the chemistry class were questioned and fingerprinted. Several perfect sets of prints were obtained from the soap on the safe, it was said. Authorities are awaiting word on the prints sent in for classification. In the mean time, officers are quietly conducting their investigations.

Dog Found Playing With Dead Infant; Pleasanton Appalled

Pleasanton police were working on the theory of a possible baby murder following the finding of the torn remains of a small baby, by a dog, in a vacant lot at the corner of Harrison and Burnell streets late last Thursday afternoon.

Neither the age or the sex of the baby had been determined due to mutilation, at press time. The body was badly mangled, believed to have been done by the dog which found the body, according to Constable Albert Vervais who was called to make the investigation. The body was however in a fair state of preservation indicating that it had not been dead many days.

According to Constable Vervais only the right arm, skull and a portion of the stomach remained intact when he arrived on the scene.

Several theories were advanced immediately as to the identity of the child and the cause of death. All of these were scouted by Constable Vervais.

One theory that is given some credence it that the child was thrown from some passing car, as it was reported that a bundle was seen to have been tossed from a car the middle of the week. On the other hand, it is said that the dog uncovered the body by digging for it.

What as left of the body was removed to Graham's Undertaking Parlor to await further developments. County officials were immediately notified and began a series of investigations, first questioning the lot where the body was found.

OAKLAND'S FIRST NITE CLUB FROLIC ON FEBRUARY 22

Given By Alameda County Theater Managers' Club
Oakland's first Nite Club Frolic, an entertainment and dance to be presented on a lavish scale, is slated for the night of February 22.

The affair, which will be under the direction of the Theatre Managers' club of Alameda county, will embrace dance music by an orchestra of at least twenty men, a chorus of twenty dancing beauties in addition to the girls and acts from all local theatres, and the appearance of several motion picture celebrities from Hollywood.

The Frolic will be held in the arena of the Oakland auditorium which will be transformed for the night into a modern night club with tables surrounding the dance floor and special acts interpolating the dancing. There will be serpentine, balloons, noisemakers of all kinds and other favors.

For the past month members of the Theater Managers' club which includes representatives from Niles theatre and every theatre in Oakland, Berkeley, Alameda and the smaller towns throughout Alameda county, have been making arrangements for the event. Funds derived from the effort will be used to further the organization's charity work and to aid in financing charity shows.

Plans for the entertainment are in charge of Frank Newman of the Fox Oakland theater, and Meyer Cohen, of the Vitaphone. Dance music will be under the supervision of such well-known masters-of-ceremonies as Walt Roegner, Hermie King, Jay Brower and Frank Siegrist. The program is scheduled to begin at 10 p. m.

Both young ladies enjoyed their air trip thoroughly and expressed their desire to have many more like it. While in San Francisco, they visited at the home of an aunt of Miss DiGiulio.

MORE ON Country Club Meet

(Continued from Page 1)

"Sheep" by Gillillan. She also mentioned others that were good reading one of which was "A Man of Little Faith," by Coffin, Mrs. Bendel stressed the fact that one should always combine a little fiction with their more serious and heavy reading.

Mrs. John Adams gave a very interesting and educational talk on the great question of the day, peace. She brought out some points that a great many people might overlook.

The members of the committee appointed for the beautifying of the highway are Mrs. F. V. Jones, chairman, Mrs. Roland Bendel, and Mrs. William Patterson.

After the business of the day had been settled satisfactorily a short entertainment was presented. Those who participated were Mrs. W. Sloan, who showed prints of famous old masters and new; and Mrs. B. Wilson, of Oakland who gave three very pleasant vocal solos, accompanied at the piano by Mrs. H. Kibby.

RECORD IS MADE BY THE ZWISSIG DAIRY HERD OF DECOTO

The Zwissig dairy, of Decoto, has established what is thought to be a butter fat production record that is unexcelled in the entire west. So declared officials of the Alameda-Santa Clara Cow Testing Association at a meeting which was held recently at the Hayward headquarters. Each of the 360 cows enrolled at the dairy produced an average of the last 12 months 389 pounds of butter fat. The state average for the year was 246 pounds.

This association is composed of an educational and co-operative body of officials, and it was unanimously declared by them that this production record was largely due to the instructive efforts of the organization, which stands for increased efficiency in dairy concerns, elimination of non-productive, and improved breeding.

HIGHEST PRICES SINCE 1920 ARE PAID FOR CATTLE

Baldwin Ranch Wins Many
Prizes at Denver
Cattle Show

The highest prices since 1920 were paid for prize winning cattle at auctions of the big shows, according to the Baldwin Ranch, near Pleasanton. The average price was \$841 per head for prize winning Herefords at the middle west shows. A number of the cattle sold by the Baldwin Ranch went at that price.

Eight head of the herd have been returned to Pleasanton after having been shown at the Portland, Oregon, Kansas City and Denver shows. In each of the shows prizes have been won by the Baldwin herd. The Denver show was the last of the season to be entered, where seven prizes were awarded the remaining eight head of Herefords.

The prizes were as follows: First Prize: pair of calves; First Prize: senior heifer calf; Second Prize: summer yearling bull; and Third Prize for summer yearling heifer, two bulls bred and owned by exhibitor, get of sire and yearling herd.

There were 300 head of Hereford shown at the Denver show, one of the largest and strongest cattle shows in the country.

Remodeling of the store is now underway, and it is anticipated that the new organization will be ready to open its doors before the first of March.
